The Heart of Transformation:

Integrating Command & Control Across The USMC, DOTMLPF, And The Joint World

PURPOSE

To provide information concerning LtGen Hanlon's Command & Control Integration Effort

BACKGROUND

Past: Many Disparate Command & Cont

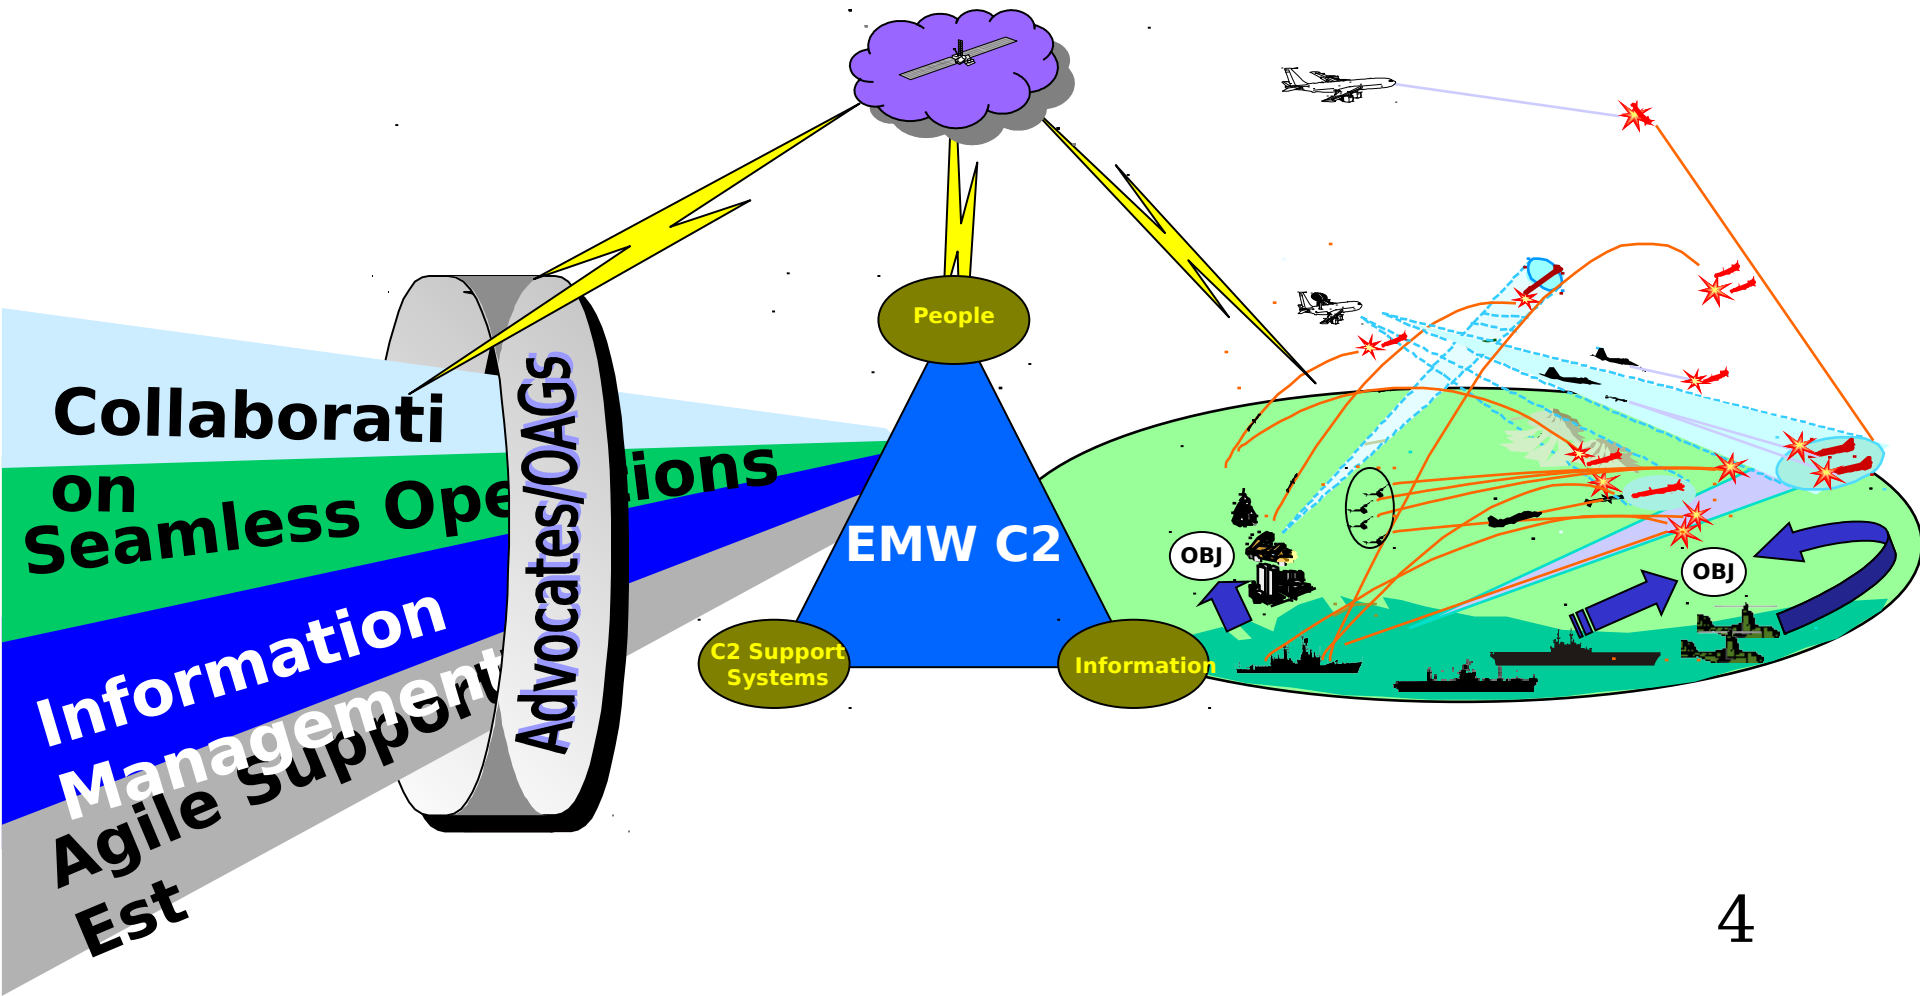
- Lacked Focus
- No Unity of Effort

Now: Opportunity for Integration Mome

- JOC/JIMP
- Command & Control Roadmap
- CEIWG

Goal

Define the Future Direction of USMC



MCCDC Focuses on C2

- **Formed Command & Control Integration Section**
  - Established Command Element Integration Working Group (CEIWG) as a way for WDID/MCCDC to better coordinate command and control
  - Establishing Liaison with other agencies
  - Integrating Command and Control Across USMC and DOTMLPF
- **CEIWG Status**
  - Conducted Initial Core WDID CEIWG meeting – First full meeting set for January 29-30, 2001
  - Shared CEIWG Brief With MCSC, C4, I, MCWL, TECOM Deputy CG MCCDC
  - On Deck Briefs: CG MCCDC, DC PPO, I&L, AVN, Navy N-7/75, JFCOM J-8
  - TOR for CEIWG Signed

Next Step: A Managed Approach

- Led by MCCDC/WDID Command & Control Integration Section:
  - To Integrate Effort across the Advocates/OAGs,
  - To Validate future EMW Command & Control Capabilities
  - To synchronize DOTMLPF Solutions:
- Capability to provide:
  - Dedicated Command & Control Secretariat/Organization
  - EMW Command & Control Products
  - Resources
  - Influence POM

CEIWG Terms of Reference

- **Purpose**
  - **Develop capabilities-based C2 Plan**
  - **Support EMW**
  - **Ensure Joint Interoperability**
- **Method**
  - **Establish standing WG focused on integration and coordination**
  - **Utilize MAA Scenarios and Wargames**
  - **Analyze EMW C2/C4I Requirements**
  - **Develop Comprehensive Roadmap**
  - **Develop Implementation Strategy**
  - **Provide Briefs to Senior Leadership**
- **Endstate**
  - **A Capabilities Based C2 Plan That Supports Execution of EMW**

DOD Transformational Goals and Pillars

- CEIWG directly helps accomplish two of the six Operational Goals
  - **Assuring information systems and conducting information operations**
  - **Leveraging information technology and innovative concepts to develop an interoperable, joint C4ISR architecture**
- CEIWG supports all Transformation Pillars
  - **Strengthening joint operations through standing joint task force headquarters, improved joint command and control, joint training and expanded joint forces presence policy**
  - **Experimenting with new approaches to warfare, operational concepts and capabilities, and organizational constructs**
  - **Exploiting U.S. intelligence advantages through multiple intelligence collection assets, global surveillance and reconnaissance and enhanced exploitation and dissemination.**
  - **Developing transformational capabilities through increased**

CEIWG Membership
